Education

Aditya College of Engineering & Technology, Surampalem 2022–2026
Bachelor of Technology in Computer Science and Engineering **CGPA: 7.91**
Intermediate (MPC) Percentage: 65%
Secondary School Percentage: 83%

Technical Projects

Farm2Connect *Spring Boot, React, PostgreSQL*

- Developed a farmer market linkage platform to improve access to procurement centres and market information.
- Implemented slot booking, live queue tracking, booking history and real-time notifications.
- Designed role-based dashboards for farmers, operators and administrators.

LEVELUP-AI *React, Node.js, MongoDB, Python*

- Developed an AI-powered gamified learning platform for students.
- Implemented adaptive learning, AI chatbot, quizzes and leaderboards.
- Built responsive dashboards using React and MongoDB.

Smart Game for Pollution Reduction *Python*

- Developed an educational game to create awareness about pollution.
- Integrated game mechanics with environmental learning concepts.

Work Experience

Student Developer 2022–Present

- Built AI and Full Stack applications using React, Spring Boot and Python.
- Participated in hackathons and collaborative software development.
- Improved programming and problem-solving skills through practical projects.

Programming Achievements

- Participated in Adobe India Hackathon.
- Developed AI Resume Builder and AI Interview Platform.
- Developed Student Placement Portal using Spring Boot.
- Active problem solver on LeetCode and CodeChef.

Skills and Interests

Programming Languages : Java, Python, C, C++, JavaScript
Frontend Development : HTML, CSS, React
Backend Development : Spring Boot, Node.js, Python
Database : MySQL, PostgreSQL, MongoDB
Machine Learning : OpenAI API
Proficiencies : Data Structures, Algorithms, Full Stack Development
Non-Technical : Leadership, Teamwork, Communication, Problem Solving

Course Work

Data Structures and Algorithms, Database Management Systems, Operating Systems, Object Oriented Programming, Computer Networks, Artificial Intelligence, Machine Learning, Software Engineering.
